

# Asiphile Mthethwa

To whom it may concern,

As a lifelong enthusiast of communicating with people, I was thrilled when I visited your website. I saw a company that was echoing truthfulness, a company that was open and simple to the people that needed it the most. I would welcome the opportunity to work with such a big company. I have a positive spirit, and can help with emitting a good service out to the people while facing challenges head on.

I have had great experience connecting and communicating with people. What is more is, I am currently studying towards a Bachelor of Laws and in a Software Development bootcamp, getting this post would not only mean I bring value to your company but the company would also bring value to my life by helping me get a step closer to my dream furthermore giving me the platform to interact actively with my community, as one day I hope to serve it as an advocate or front end developer. I'm willing to work my way up. I see this company as the necessary pivot that will be a good backbone to the start of my career.

I'm an outgoing person with leadership qualities when given the opportunity to thrive whilst obeying authority with the utmost respect. I would welcome the chance to work with this world recognised company, whilst my success translates in your firm. I hope to hear from you soon.

Kind regards

Asiphile Mthethwa

PS. I would love the opportunity to show my welcoming and open personality.
