PROFILE

I am a 25-year-old LLB student with a strong passion for coding and technology. Currently, I am completing a full-stack development bootcamp at CodeTribe Academy, where I have been honing my skills in software development. Upon graduation, I will earn an NQF Level 5 qualification in full-stack development. My dedication to learning and problem-solving drives me to excel both in law and technology, as I work toward a dynamic and innovative career.

EXPERIENCE

Sales Adminitrator
2020-2021

As a sales administrator, I managed administrative tasks to support the sales team, including processing orders, maintaining accurate customer records, and coordinating with clients to ensure timely delivery of products or services. I handled customer inquiries, prepared reports, and assisted in streamlining the sales process to improve efficiency and client satisfaction.

Teaching Assistant
2022-2023

As a teaching assistant, I supported educators by facilitating classroom activities, providing one-on-one assistance to students, and helping with lesson preparation. I monitored student progress, maintained classroom organization, and contributed to creating an engaging and supportive learning environment. Additionally, I assisted in grading assignments and addressing student inquiries to ensure their academic success.

EDUCATION

University of South Africa
2020 to date

- LLB (In Progress): Currently pursuing a Bachelor of Laws (LLB) at university, developing critical thinking, research, and legal analysis skills.
- CodeTribe Bootcamp (2024): Nearing completion of a full-stack development bootcamp, earning an NQF Level 5 qualification. Acquired expertise in React.js, Node.js, MongoDB, and RESTful APIs, with a focus on building responsive and dynamic web applications.
